

Kunal Darji

Fullstack Developer

Mumbai | 8850908617 | kunaldarji2004@gmail.com

 <https://in.linkedin.com/in/kunaaal-darji>

I'm a Full Stack Developer who builds scalable web solutions and MVPs using clean, modern technologies. I also explore AI-powered tools to enhance user experiences and improve development workflows.

EXPERIENCE

Fullstack Developer

Techinfinity – Mumbai

June 2023 – Present

- Building and maintaining full-stack web applications using Python and Django framework.
- Developing custom e-commerce solutions on Shopify and WordPress platforms.
- Creating responsive and modern web designs with seamless user experiences.
- Integrating APIs and third-party services for enhanced functionality.

Web Developer Intern

Hospitality Minds – Mumbai

September 2022 – April 2023

- India's Leading Revenue Management and Digital marketing company for Hotels.
- Developed and maintained websites for hospitality clients using HTML, CSS, and JavaScript.
- Created responsive web designs optimized for all devices.
- Collaborated with the marketing team on digital campaigns and web presence.

PROJECTS

ENpower Skill Lab

- Full-scale SaaS platform for schools to assess, track, and develop students skills with multi-role dashboards, gamification, and competency mapping.

Spenta: Real Estate CRM

- A comprehensive real estate customer relationship management (CRM) platform designed to streamline customer enquiries, lead management, and sales processes for multiple residential properties.

Indias Future Tycoon

- AI-powered innovation idea management platform for student entrepreneurship competitions with automated evaluation, jury dashboards, and ranking systems.

SKILLS

Technologies: Python, Django, Wordpress, Shopify, Webflow, HTML, CSS, JS
